### Chorus

Little miss missy move outta my way  
Move it on over i got something to say  
U think u can wreck me disrespect me  
And then u wanna come crawlin back  
I don't think so

### Verse 1

Do u remember yesterday  
When u acted like u didn't know me  
When u rolled with the other crew  
When u left like noone knew  
Then today u wanted to come back  
To this pac  
I don't think that ur  
Part of us anymore  
When u decided to walk out that door  
U stepped out into the cruel world  
And now u aint my gurl  
(no no little miss missy u think u can get away?)

### Bridge

Im sick and tired of the things u be sayin  
Sick and tired of the games u be playin  
Sick and tired  
Sick iand tired
