Oh my god I thought I was a free man out on the road  
held my tongue forever on the shortwave radio  
oh my broken record better turn my back on 'em all  
ocean white cap lover ain't afraid to break my fall  
when I wake up  
and take you with me  
I've seen too much of old  
and I'm not waiting  
for the one  
to find me  
Hold me snow white angels I'm aware I'm in too deep  
I can't stand my ground when I'm torn and taught at  
sea  
so turn out all the lights and we'll say that it's not me  
let me lie forever in your room just fall asleep  
When I wake up  
I take you with me  
I've seen too much of old  
and I'm not waiting  
for the one  
to find me
