"Autumn"

Girl, you remind me of summertime
But now you need time to clear your mind
You're tripping over what is wrong and right
Just decide, I've been waiting all night

[Chorus:]

Think back, think back, to the summertime
I would cross through these state lines
You were always on my mind
It should not be this hard to see
How to get from point A to B
Without losing sleep, without losing sleep

I will follow the electric lines
With my electric heart I then will find
A way through all these damn street signs
But I'll be there, I'll wait by your side
Ooo, by your side

[Chorus]

We spin, we spin
And fall onto the floor
You're such a lovely lady
We spin, we spin
And circle round once more
Though it's making me crazy, yeah

[Chorus x2]
