Dangerkid Intro::

Just give me one chance?
Baby give me one chance?
Me and you girl we're gonna dance,
Trust me baby!
We're gonna have a great great time,
Your the girl that's always on my mind.
No matter what i'll never let you down,
All i'm asking for is One More Chance!

Verse 1:

Kirstie?
This song is for you, my dedication.
2 letters of ya name, your my inspiration.
I fucking love you, why did you leave?
I'm not moving on, your the air that i breathe.
3 words for you, please come back.
Sitting here crying, while writing this track.
Don't know what to do, cos your not here.
Still Waiting, & crying with a tear.
Shit almost forgot, would you give me another try?
Please let me know by a text, leave me a reply.
It's you that i truly miss,
Your on my mind, Got ya name on my fist.

Bridge:

Every bar i've ever wrote, i wrote it for you.
Every bar i've ever wrote, i wrote it so true.
Every girl need 2 know, your my one & only.
Now i'm travelling in time, reminsing i'm lonely.

Verse 2:

Damn girl you're so damn beautiful,
You want the truth? look i'll get truthful.
Without you i feel so depressed,
Ask me anything i'll confess.
The reason i want you back,
Cos you make me happy that's a fact.
I love you that much i'll run the world,
Just to be with you girl.
All the hours on the phone,
All the late talks when we're at home.

I would never let you down,
I'll make your world turn around.
I would never make you cry,
I'll never tell a lie.
Cos you mean so much to me baby,
With you i'll live happily.
Please let me show you,
Please let me hold you.

Bridge:

Every bar i've ever wrote, i wrote it for you.
Every bar i've ever wrote, i wrote it so god damn true.

Verse 3:

It was summer when we started talking,
I always leave you a text in the morning.
So you went without saying goodbye,
A few seconds later with a tear i cry.
All i'm asking is can i have another chance?
Cos you make me smile everytime i glance.
Trust babe we will make this work,
It's you that i want i deserve.
Can you hear me? it's so true,
The feelings are here can you tell?
My sky's gone vanilla not blue,
With you my sky will turn blue.

Bridge:

Every bar i've ever wrote, i wrote it for you.
Every bar i've ever wrote, i wrote it so true.
Every girl need 2 know, your my one & only.
Now i'm travelling in time, reminsing i'm lonely.
