(Russel Mael)

I'm picking up where I once left off in the
search for a justified balance between the
wealth that I have now and the wealth
that they all want to have

Let's ask Roger if he knows what I mean

Roger, Roger, let's take your Sue

How does she do it Roger, how does she do it, Roger?

Roger, Roger, has Sue got the balance right
for you, Roger, I ask you Roger, has she
got the balance right for you?

Has she got it, has she got it?
Roger, Roger, Roger, Roger
