"These Gray Skies"

Visit "[These Gray Skies](#)" on MotoLyrics.com

These fireworks sound more like gunshots,
They've brought me to the floor tonight.

Just pull the skies over my tired eyes.
Will this song touch your heart like I once did?
Cause I know...

You left these butterflies in my stomach,
It's tearing out my soul tonight.

Just pull the skies over my tired eyes.
Will this song touch your heart like I once did?
Cause I know it's killing me.

I remember the way we used to be.
I will follow your shadow.

Just pull the skies over my tired eyes.
Will this song touch your heart like I once did?
Cause I know it's killing me.
