"Travel By Bloodline"

Visit "[Travel By Bloodline](#)" on MotoLyrics.com

Did you listen to his stories?
He had some stories that would change your life
This doesn't have to be the saddest day
For we can always hold the brilliant memories

You're always on my, always on my mind
Turned from tragedy
A source to draw from a bloodline legacy

You showed me more than just these railways
It was your passion and I learned that well
You gave me more in life than anyone deserves
And forever I'll keep your bloodline legacy

And you're always on my, always on my mind
Turned from tragedy
A source to draw from

And you're always on my mind
Turned from tragedy
A source to draw from a bloodline legacy

This photograph, I'll carry to my grave
I never lost so much as I did that day

Turned from tragedy
A source to draw from a blood
And forever, yeah, yeah, forever
You're always on my, always on my mind
I miss you, I miss you, I miss you and I miss you
