I want your body, bring your body
Don't you bring your mind
I want your body, bring your body
Don't you bring your mind

I want your body, bring your body
Don't you bring your mind
I want your body, bring your body
Don't you bring your mind

You deal with the lesson
Get down with the program
Just do what I say and show it to me

I want your money, bring your money
Won't you drink your wine
I want your money, bring your money
Won't you drink your wine

I want your money, bring your money
Won't you drink your wine
I want your money, bring your money
Won't you drink your wine

You deal with the lesson
Get down with the program
Just do what I say and show it to me

Get down until you see the break of dawn
Lay it down like an atomic bass drum
You look fine but the pain in there to see
True to the test so just dance, dance

You deal with the lesson
Get down with the program
Just do what I say and show it to me
Show it to me
