You know I'ma get there and I'll be on time
I will make that mountain mine
I keep on staring at the road without an end
Waiting for the sun rounded ..

Chorus:

I keep moving to that border line
Where the golden earth will meet the purple sky
I keep on moving to that finish line
Knowing that tomorrow will be mine.

Time to hold on .. I was strong
and for luck to come along
the strength in me re assures me feel the pain
But going over once again.

Chorus:

I keep moving to that border line
Where the golden earth will meet the purple sky
I keep on moving to that finish line
Knowing that tomorrow will be mine.

If I will I'll be cleaning my time
Spit the sea feel the .. turning water into wine.

[Chorus:]
