### "Farewell"

It's never fair  
I told you  
This was gonna end  
It's never fair  
I knew that  
You wouldn't be the same  
It's never fair

Just before you left your place  
I locked my heart into a cage  
Just before you left your place  
And I still wish I could see your face  
It's never fair

In ashes memories disappear  
My soul is my biggest fear  
The angels will not save a tear  
I wish you could hear me, my dear  
It's never fair
