Get the drummers on!
Dani' Wright right upon now!
I like him, I want him, I love him a lot!
Whatever you're doing daddy, please don't stop!
Got me, keep going, I'm opened, we are
You told me you can handle me,
Baby, cause I can figure you out and it's making me
crazy
I don't want or, if, and, but some of maybe
So what are you saying it's wither you're in, or you're
out
Baby, what you're about?
Cause I want you, but know it's your turn to make your
move!
Oh, baby?
What you gonna do, with all this loving for you?
Oh, oh, oh!

Chorus:
He love me yeah, he love me not
He love me yeah, he love me not
He love me yeah, he love me not
He love me yeah, he love me not
Tell me, tell me, baby what you want!
He love me yeah, he love me not
He love me yeah, he love me not
He love me yeah, he love me not
Tell me, tell me, baby what you want!

I like him, I want him, I love him a lot!
Whatever you're doing daddy, please don't stop!
You got me, keep going, I'm opened for ya
Told me you can handle me,, break you off!
Baby, cause I can figure you out and it's making me
crazy
I don't want or, if, and, but some of maybe
So what are you saying it's wither you're in, or you're
out
Baby, what you're about?
Cause I want you, but know it's your turn to make your
move!

Oh, baby?
What you gonna do, with all this loving for you?
Oh, oh, oh!

Chorus:

He love me yeah, he love me not
He love me yeah, he love me not
He love me yeah, he love me not
He love me yeah, he love me not
Tell me, tell me, baby what you want!
He love me yeah, he love me not
He love me yeah, he love me not
He love me yeah, he love me not
Tell me, tell me, baby what you want!

Mr. Lover, call me Mr. Lover
Girl, I know you love it when I kiss upon your,
You see me in a peanut butter, be my,.
Don't get mad, cause you already know the type of
dude I am!
But that don't mean that I don't have love for you, baby
Although it sounds crazy, you're my number one lady!
..you're pretty in the face, coca cola,
Got everything it takes,
Harder than no weather in Miami ,
You won't leave the weapon like your last name's
glover
So had what I want , go be with another
When more than what I want is what I'm standing right
in front of
Oh, yeah! I love her yeah, I love her not
But time is about the ..shit, stop!
Come on!

Chorus:

He love me yeah, he love me not
He love me yeah, he love me not
He love me yeah, he love me not
He love me yeah, he love me not
Tell me, tell me, baby what you want!
He love me yeah, he love me not
He love me yeah, he love me not
He love me yeah, he love me not
Tell me, tell me, baby what you want!
