Here in my mind, replayin' every line
Remembering all of the love we made
You told me only yesterday
Nothing could take your love away

Here in this room, so many traces of you
So many nights lying by your side
Sleeping with secrets deep inside
Secrets your eyes could not deny

CHORUS I

Come as you are, lay with me
Beautiful lies once more tell me
With all the love in my heart
I'll set you free
Now that our eyes hae said goodbye

I found joy so pure, my heart secure
With the love the two of us would share
And though it all seems so unfair
No one's to blame when love's not there

My whole life has changed
Looks like I'll surely go insane
Cause my world revolved around the love that never
was
Before I say goodbye to love
Just hold me until the morning comes

CHORUS II

Come as you are, stay with me
Kiss me once more before you leave
With all the pain in my heart
I'll set you free
Now that your eyes have said goodbye

BRIDGE

Well I know it's not easy
Finding words to let me know
But the pain of make-believing
Is more than just letting go

CHORUS I

Come as you are, lay with me
Beautiful lies once more tell me
With all the love in my heart
I'll set you free
Now that our eyes have said goodbye

CHORUS II

Come as you are, stay with me
Kiss me once more before you leave
With all the pain in my heart
I'll set you free
Now that your eyes have said goodbye
Now that your eyes have said goodbye
Now that your eyes have said goodbye
