Six foot six above sea level
I grab the mic because I like to take you to another
mental level
Low power frequency radio modulation
The big sound from the underground another pirate
station

We bring the truth to places truth is never heard before
We bring the sound communication of our tribal war
Dark vision fly by helicopters in the night
Attempt triangulation of our station in the fight

Straight from the bass, deep down low precision
High crime treason we broadcastin' sedission
Like the Wall Street mornin' afternoon edition
Commandeerin' airwaves from unknown positions

Live and direct we comin' never pre-recorded
With information that will never be reported
Disregard the mainstream media distorted
Whoop, whoop
We comin' listener supported

Live and direct we comin' never pre-recorded
With information that will never be reported
Disregard the mainstream media distorted
Whoop, whoop
We comin' listener supported

Don't take no prisoners if you can't afford to feed none
Don't start no fights if you can't predict the outcome
Don't make donations where you cannot get your
dough back
Fuck the apathetic bull shittas send 'em all your Prozac

I will not climb into your telephone tree
And hell no, you can't put me on hold
It's the same recorded message, you'd been singin' all
along
Keep handin' us the Bible while you walkin' off with all
the gold

The bureaucratic office sends you merry-go-rounding'
While the KKK police the streets by blood houndin'
Interest on the credit card just keeps on compoundin'
But the FCC can never shut this pirate sound down

Live and direct we comin' never pre-recorded
With information that will never be reported
Disregard the mainstream media distorted
Whoop, whoop
We comin' listener supported

Live and direct we comin' never pre-recorded
With information that will never be reported
Disregard the mainstream media distorted
Whoop, whoop
We comin' listener supported

Live and direct we comin' never pre-recorded
With information that will never be reported
