What's wrong? tonight, you're leaving  
Well I don't give a good god damn anyway  
You never loved me! you never did!  
You never will and now you're never gonna get the  
chance!  
So just walk out through that door and be on your way

All I did is what you told me to but was it ever good  
enough for you?  
You said this was forever! you said you'd never go!  
You said this was forever and you lied!  
On my own again

When the night fades into the sunrise  
I hope you're waking up alone  
When the dawn becomes the epidemic of our lives  
I won't be taking you home

All I did is what you told me to but was it ever good  
enough for you?  
You threw me out of bed, you didn't have to do what  
you did to me
