I have to come... clean with you  
You're all I want and I think you want me too  
So come on! come on!  
Come on and just let me in  
'Cuz you have to know the way I feel about you, so I'll  
wait  
Forever for you just to come around  
But I'm telling you right now

I've got the curse a million other girls would love to try  
and break  
But I'm holding out for you  
I wrote the words a million jennifers would love to here  
me say  
But they're only meant for you, so listen!

I know your heart was broken just recently  
And I know it's hard to trust again easily  
So come on! come on!  
Come on and just let me in  
'Cuz you have to know the way I feel about you, so I'll  
wait  
Forever for you just to come around  
But I'm telling you right now...

I know you feel the fluttering of the butterflies  
I see it in your eyes  
And there's definitely electricity  
It's all around tonight  
Tonight! tonight!
