### "A New Era"

This is the dawning of a new era!  
This is the dawning of a new era!  
I met a girl from area three  
She told me that she worked in a chicken factory

This is the dawning of a new era!  
By two o'clock we were 'Brahms & Liszt'  
I had to walk her home through area six

This is the dawning of a new era!  
Sticks and stones may break my bones  
In area six they throw bottles and bricks and kicks

This is the dawning of a new era!  
I climbed the stairs to the fourteenth floor  
The key won't fit the door

This is the dawning of a new era!  
She said she had a beautiful flat  
We had to sleep on the mat

This is the dawning of a new era!  
Woke up and thought "This ain't exactly heaven"  
Oh shit, this is area seven

This is the dawning of a new era!  
This is the dawning of a new era!  
This is the dawning of a new era!  
This is so boring, it's a new era!
