What you gonna do, when guests drop in on you? We won't go away, 'cos we've come out to stay Stand there like parked cars if you want to We can't force you to enjoy this music Take it or leave it, we'll carry on regardless If you don't like it you don't have to use it It's up to you, up to you It's up to you, up to you It's up to you, up to you It's up to you, up to you

Looks like a case of the blind leading the deaf to me You must be bored out of your pants

Take it or leave it, we'll carry on regardless

If you don't like it you don't have to dance

It's up to you, up to you, black

It's up to you, up to you, white

It's up to you, up to you, or fight

In London town you can hear the youth, them say "Take warning"

It's up to you what you really wanna do For you were standing on the corner giving trouble When the policeman come, he says you have to move on the double, yeah

So, steppin' up the street with my little rude girl With her 'stay-pressed' to her ankles It's up to her what she really wanna do It's up to you, you and strictly you and you What you gonna do, when morons come for you? And they won't go away, they want the whole world painted grey

It's up to you, up to you

It's up to you, up to you It's up to you, up to you It's up to you, up to you It's up to you, up to you It's up to you, up to you It's up to you, up to you
