And I wont be the one to say,
When your a million miles away.
And I don't wanna be,
Any place where you won't be.
Cause you mean,
Everything to me.

Please don't take yourself from me,
I'll always have you back you see.
And I don't wanna be,
If you are not with me.
Cause you mean,
Everything to me.

You saved all the best in you for me.
And it's just how I want it to be.
You know everything you meant to me,
Was just how I want it to be,
Was just how I want it to be,
Was just how I want it to be.

You saved all the best in you for me.
And it's just how I want it to be.
You know everything you meant to me,
Was just how I want it to be,
Was just how I want it to be,
Was just how I want it to be.

... was just how I want it to be...
