She drove me to love lane in her car,
That was some time.
Went back to the same place sunday,
I'm on my own,
Miles away.
No company rules,
Surrounded by sheep,
It's been so hard.
You're dark secret I can't keep,
It's been so hard.

Stand.
Don't understand,
Don't understand,
Don't understand.
Stand.
Don't understand,
Don't understand,
Don't understand.

What's on your mind?
I thought we were.
Stay up late,
Hear her call,
When she's perfect she's got flaws,
You want candy.
You want candy.
Well be discreet.

Stand, don't understand,
Don't understand,
Don't understand.
Stand, don't understand,
Don't understand,
Don't understand,

You don't love me,
You don't love me,
You don't love me,
You don't love me yeah.
You don't love me,

You don't love me,
You don't love me,
You don't love me yeah.

I may march in april,
Nothing to say if you were here.
Thinking about you someday,
Talk on your own.

Stand, don't understand,
Don't understand,
Don't understand.
Stand, don't understand,
Don't understand,
Don't understand,

You don't love me,
You don't love me,
You don't love me,
You don't love me yeah.
You don't love me,
You don't love me,
You don't love me,
You don't love me yeah.
