### "Ghost Town 559"

Visit "[Ghost Town 559](#)" on [MotoLyrics.com](https://MotoLyrics.com)

This town is coming like a ghost town

All the clubs are being closed down

This place is coming like a ghost town

Bands won't play no more

Too much fighting on the dance floor

Do you remember the good old days before the ghost town

We danced and sang and the music played in any boom town

This town coming like a ghost town

When you see them fight against themselves

This place is coming like a ghost town

No job to be found in this country

Can't go on no more

People getting angry

This town is coming like a ghost town
