### "Stereotype 350"

Visit "[Stereotype 350](#)" on [MotoLyrics.com](http://MotoLyrics.com)

He's just a stereotype  
He drinks his age in pints  
He has girls every night  
He dosen't really exist  
He spends his weekends with whatever floats  
He forgets the punchline when he tells a joke  
He wants to stay out dosen't want to go home  
Till his prickly fingers are stuck down his throat  
He's just a stereotype  
He drinks his age in pints  
He drives home pissed at night  
And he listens to this every hour  
He drank his fiancée when he.....  
The doctor said no drink for 17 weeks  
He wants to gout but he has to stay home  
So he watches color TV on his own  
He's just a stereotype  
He drinks his age in pints  
He drives home pissed at night  
And he listens to this every hour  
The toplets are finished

The cure is complete

He hasn't had a drink for 17 weeks

17 punks to limit his night

Goes straight to his head, he ends up in a fight

He's chasing ..... on a dark rainy night

The rest ..... with flashing lights

His mom's waking up she hopes he's alright

But he's wrapped round the lamppost on Saturday night

He's just a stereotype

He drinks his age in pints

He has girls every night

And he doesn't really exist
