Cowards surrounding
now submit your story
A place in the group
A face in the crowd
Finding yourself in manuscripts of glory
Engage
the comedy called life

Your call
Let's enter stage
Look, rise, walk, fall
Apart in my open arms
There is no time for fainting now
Did you loose your line?
"We will never be apart"

Feel the heartbeats
Beat my heart down
A swallowed key would grant you major control
Fool my presence
Crush it
make me weak
You'll never reach me anyway

Feel the heartbeats
Beat my heart down
A swallowed key would grant you major control
Fool my presence
Crush it
make weak
You'll never reach me anyway
