Ooooo, Look what you created, only got yourself to
blame I remember when you hated

Ooooo, Look what you created, only got yourself to
blame I remember when you hated

Ooooo, Look what you created, only got yourself to
blame I remember when you hated

Ooooo, Look what you created, only got yourself to
blame I remember when you hated

[Wem Â– Verse 1]

I'm pumping coolant in my veins just to keep me cold
Cause I'm always over heating like when the motors old
So like thick letters, I keep my actions bold
I don't bother telling people what they already know
Hadda bunch of assholes tryna teach me what the
route is

So I Taylor Swifted the situation, acted cool about it
There were days where I thought that I would come in
last

Now we make it rain in the club, that's spilt cash
And imma keep going going going adderal
I'm bigger than you niggas I should go and shop at big
and tall

And a deal, it's going down like some asphalt
And I try to stay faithful but imma be a asshole
I know u wanna be me I know who u rather be
No time for sleep when I'm making my dreams reality
I live in my own world to yours I'll never come back
So I remain taller cause dudes just reach my knee caps

[Wem – Verse 1]

What I got on, my high top Supras
Mr. Kryptonite I am the man I'm super
Extraordinary and don't you try to dare me
Just to get in this beat cause my flow is so scary
My pockets swollen bitch cause I'm a tight jeans
wearing
Dumb motherfucker, just call me Lloyd or Harry
And my swagger so right that I don't need a green light
To go and get a model bitch to ride my dick right
Don't introduce me to your sister cause I'll leave with
her tonight
And is that your girlfriend I fucked her last night
I'm addicted to her head so just call me a fiend
I put that white in her mouth like she brushing her teeth
White cup in my hand like I'm hanging with Wayne
No umbrellas from Rihanna I just sip my purple rain
Don't fumble under pressure cause you can't handle
this
I make magic motherfucker just call me Angel Criss...
Ooooo
