Like a free sample, you gotta try me  
Got dudes who ride with me, girls who wanna ride me  
My words are not styrofoam don't take em lightly  
Blinding diamonds on my chain, they shine brightly  
No surprises, I am here to stay  
Not saline on a chest I am not fake  
Make moves is my motto and my last words  
You dudes are all the same like mom spelt backwards  
I sweat gas, they got you gassed up  
If they come for me I got a couple stashed up  
It cost to play the game, so I paid up  
Time is money, I got money, so I always stay up  
I got my shit together and they all hate it  
They know that I'll die forever just to fucking make it  
No time is wasted, I just grind on  
The girls I chill with when we fuck we leave the lights on

You see it don't have to have a verse and a chorus and  
then a verse and a chorus, cause it's just me

Me and Jai B go together like we Drake and Noah  
They see us coming for em they know their days are  
over  
The wait is over, The Unexpected's here  
Give me time you other rappers gon be yester-year  
Had to say goodbye, cause I could never love her  
How do I stay humble with my ex's on the covers  
Of the magazines and the billboards  
And I'm high, like I'm 10 stores  
I mean I'm 10 stories, I am a beast  
Like a chupacabra if she hot I might holla  
But only if she swallows like twitter they follow  
I like every single girl but I'm addicted to the models  
Full throttle, is how I go  
I want your hoe to know, that I'm finna blow  
Up like am C4, I never take a detour  
I stick to what works and that's me and I am sure  
Nobody else is like me, I'm getting better nightly  
You wanna know where I am, it's where the hoes find  
me  
Been going off the dome, I'm rarely ever home now

Cause I'm no longer on the fucking ground

Yeah... I'm in the fucking sky, please don't shoot me  
down
