There you are now with that look in your eyes
I've seen that face times before
I know you want me you just cannot hide
Ever since you walked through that door
But everytime you pass me by
She holds you near
How could you be with someone else
When you want me tonight

Chorus:

I know you want to show me what you can't explain
No words to say but shes still by your side
I wonder if she left you would you be afraid
To come my way, knowing shes not around

How many times does it take you to see
You have someone of your own
What if she knew you were thinking of me
You didn't come here alone
But everytime you pass me by
She holds you tight
How could you be with someone else
When you want me tonight

Chorus(4x)
