"Break It Down"

Visit "[Break It Down](#)" on MotoLyrics.com

Oww, got somethin for the crowd
So turn this shit up loud
We bout to break it down, down, down, down

Bout to break it down girl let's go
Disappear like magic, presto
And I'm a go getta with a whole lot of drive
Yeah I do the drivin I don't ride
That's on you when ya break it down
House party goin nuts and the jake's around
Now I'm like Hush don't make a sound
Got a noise complaint cuz we shakin ground
Huh, let's go again
Bass up loud and we goin in
And I got about 4 to 5 lady friends
If havin fun is a crime then take me in
Yeah, we bout to party up
Got girls strippin down for all of us
Drinks go around let's throw one back
When that ones gone let's sip on Jack
I'm so tipsy, I'm so faded
I love this life and I bet y'all hate it
Hate it so much that ya talk about it
Goin all crazy tryna walk around it
Tactics found the perfect mix
Got girls gettin freaky like a circus tent
See me headin for the screen while you on the bench
And you little league still we above the rim so

Oww, got somethin for the crowd
So turn this shit up loud
We bout to break it down, down, down, down

Oww, oww, oww like wow
High, high, high like how
Ride, get fly right now
Pedal hard get fly right now
Pow, no make no sound
Bloww, wood on that mound
Make up and she look like clown
Down, reboot go down

Down, below the ground
Down, fl-flip that frown
Oww, remove that gown
You, you think like noun
I, I do like verb
You, you smell so oww
You, you moan so loud
Break-break those down
Walls I break those down
Broads, I skeet them down
In the club I keep them down
No up I keep em down
Down, down, down
Hey yo Tactics, haha
Shawty got them Applebottom Jeans, slim with the
curves
Word, they workin on my mothaf***in nerves
So so, I work on they nerves
I'm in they mind so slurred
I'm in it, so blurred, ugh word

Oww, got somethin for the crowd
So turn this shit up loud
We bout to break it down, down, down, down

We bout to break it down
We bout to break it down
We bout to break it down
We bout to break it down, down, down, down
Up? No no you can't go up
Up? No no you can't go up
We bout to break it down, down, down, down
