Thinkin of all the things I didn't say
To make you stay
And now I'm alone

Now I'm alone and I don't believe in love ya see
I wouldn't say I'm lonely but I've been missin ya
company
I'm missin what we had, I know you do too
Hell I even miss the fights that we always made it
through
Can't believe we didn't make it now, got me feelin
different now
I never give up, you will never see me take a bow
I hate this now (why?) cuz I know it ain't right
So I'm a do what it takes to get you back up in my life
My friends are gonna trip but we can't let this shit go
See I hid how I felt they don't know how I miss you
Don't know if you care or if we're goin anywhere
But I can't leave it alone, so I guess I had to share yeah
And when I say you meant the world
I meant you and only you had me ignorin other girls
She was the first to make me feel like this
Got me off that playa shit, took it back to basics
And I don't plan on erasin it

Thinkin of all the things I didn't say
(Things I didn't say, to make you stay)
Now I'm alone up in this room
With these memories of you
(Memories of you)
I wasn't thinkin about missin ya company
(Things I didn't say, to make you stay)
I'm thinkin back and it makes me so mad
Cuz I remember what we had, it's crazy

And now I'm thinkin back got so many memories
Makin it hard to move on provin separation ain't meant
to be
Maybe we, made the wrong decision about this
You should let me take you out and we can talk about
us

We can talk about the future, talk about the past
We can talk about how this time it's gonna last
Ain't worried bout an ex or what somebody say
Keepin all my concentration right up on you and me
If there's a problem let's dead it, get through it forget
And then get caught up in the moment bet we'll never
regret it
All day, everyday been thinkin bout you
Thinkin how what I bought into wasn't true
How it all panned out really had me feelin blue
But now I got it all planned out and know what I need to
do (true)
I can't lie I am missin my boo
And I put it on my life I know she missin me too

Thinkin of all the things I didn't say
(Things I didn't say, to make you stay)
Now I'm alone up in this room
With these memories of you
(Memories of you)
I wasn't thinkin about missin ya company
(Things I didn't say, to make you stay)
I'm thinkin back and it makes me so mad
Cuz I remember what we had, it's crazy

A few weeks passed then she wrote me a letter
But I got my guard up, first thought was "forget her"
Til the feelin came back and made me Fall like October
So I hit her right back I'm tryna talk come on over
Showed up on my front porch opened the door
Then I let her in my house and in my heart even more
I don't know what's in store but we takin it slow
Fell right into my arms and in her face was a glow
You know how it goes with the one that you chose
Yeah we got a lot of love but we play some many roles
Had me stressin every minute it was takin a toll
And since the love got replenished we can finally grow
And go on to a better place, yesterdays the past
If you ask me I'm sure that we are bound to stay on
track
That is from the heart so I gotta play my part
And you shine so bright you like an angel in the dark

Thinkin of all the things I didn't say
(Things I didn't say, to make you stay)
Now I'm alone up in this room
With these memories of you
(Memories of you)
I wasn't thinkin about missin ya company
(Things I didn't say, to make you stay)
I'm thinkin back and it makes me so mad

Cuz I remember what we had, it's crazy
