Chorus:

Keep your head up to the sky
The sun is gonna shine one day
Trust and know without a doubt
The Lord is gonna make a way

I know you've got problems, situations get you down
Friends come in and out of your life,
Before you know it your on the ground
Actually wondering who's gonna lift you up
But don't you fear cause I know where your help comes
from

(Repeat Chorus)

Our lives are complicated, we struggle and we search
We put our trust in things so meaningless
And always wind up getting hurt
So the best thing to do is call upon His name
Cause He did it for me and for you He'll do the same

Bridge:

There are some days when you just feel like giving up
But just remember that phrase,
Give it to Him and He will come to fill your cup

(Repeat Chorus)

(Repeat Bridge)

(Repeat Chorus)
