I'm racking my brain
Trying to comprehend
How for some unknown reason
Our status will remain as friends

I'm destroying my mind
Trying to understand
How with little to no effort
You've got me eating
Out of the palms of your hands

There was not a single spark
When my lips landed
On yours in the dark
But regardless of what happens next
You're my beloved
You just don't know it yet

Tonight I made a secret oath
To keep chasing after you
And I am not going to stop
Whether you like it or not

We're murdering our lives
Trying to make it work
But you and I both know
That we are a lost cause
We're nothing more than
Specks on this earth

There was not a single spark
When my lips landed
On yours in the dark
But regardless of what happens next
You're my beloved
You just don't know it yet

Tonight I made a secret oath
To keep chasing after you
And I am not going to stop
Whether you like it or not

Tonight I made a secret oath
To keep chasing after you
And I am not going to stop
Whether you like it or not

Yeah, I know you listen to this
All alone up in your room
I know you love how
All this music's about you
