It goes beneath what I've done  
It's bigger than the helplessness I felt  
It comes around without a face  
And redefines my subconscious again

I can't be fixed  
I can't be fixed  
I can't be fixed  
'cause I won't change  
Stall

Reverse the cause to numb the sense  
It's meaningless if I can't be ashamed  
I latch myself onto the need  
The only thing that isolates me now

I can't be fixed  
I can't be fixed  
I can't be fixed  
'cause I won't change  
Stall

It goes beneath who I am  
And turns into the recklessness I felt  
It comes around without a face  
And redefines my subconscious for good

I can't be fixed  
I can't be fixed  
I can't be fixed  
'cause I won't change  
Stall
