CHRISTMAS THROUGH YOUR EYES

(Gloria Estefan and Diane Warren)

Till had you I didn't know
That I was missing you
Had to grow up and see the world
Through different shades of doubt
Give me one more chance to dream again
One more chance to feel again through your young
heart
If only for one day let me try

Chorus

I wanna see Christmas through your eyes
I want everything to be the way it used to be
Back to being a child again thinking the world was mine
Back to being a child again thinking the world was kind
I wanna see Christmas, Christmas through your eyes

I see the rain, you see the rainbow hiding in the clouds
Never afraid to let your love show, won't you show me
how
Wanna learn how to believe again
Find the innocence in me again through your young
heart
Help me find a way, help me try

Chorus

I wanna see Christmas, I wanna see Christmas
I wanna see Christmas through your eyes.
