SAY

---

(Jon Secada and Bill Duncan)

Ain't much for promises  
But I'm a fool for your sweet caress  
Don't mean to be obsessed  
But all that I can do is guess

And when I miss you  
I try to keep my head  
But when I kiss you  
My heart speaks out instead

And if it's someone else  
I'd rather be just by myself  
Your honesty would help  
Right now it seems so hard to tell  
Don't wanna worry, but is our love alive  
I'm in a hurry, my feelings I can't hide

Chorus

-----

Say do you say, won't you say you loveme  
Say do you say, that you need me still  
Say won't you say that we'll stay together  
Say we always will

Faithfully yours my love is real babe  
If that is what you want  
Then I'll be there  
'Cause I feel so sure this is the real thing  
My heart with you will stay

Chorus
