Can't kick that habit
I guess you know
What conversation
But here I go

I can't stand it
Facing this alone
Don't change the subject
If it's not clear

Don't say you're sorry
Then disappear
'Cause that means nothing
Nothing if your not here

Can't turn it off alone
Turn it off alone, no
Turn it off, no

I can sing but I can't sigh
I can barely breathe the air I need
To justify why I said so long
To get so high

I can't kick the habit
I can't kick the habit
Can't kick the habit

To save my soul
One foot in heaven
One in the hole
My whole focus
In a poison picture show

Can't turn it off alone
Turn it off alone, no
Turn it off, no

I can sing but I can't sigh
I can barely breathe the air I need
To justify why I said so long
To get so high

I can't kick the habit
I can't kick the habit
I can't kick the habit

If I let you in
Will you let me in?
If I let you in
Will you let me in?
Will you let me in?

If I let you in
Will you let me in?
If I let you in
Will you let me in?
Will you let me in?

Can't kick the habit
I can't kick the habit
I can't kick the habit
I can't kick the habit

I can't kick the habit
I can't kick the habit

I can't

I can't kick the habit
I can't kick the habit

Will you let me in?
Let me in, let me in
Will you let me in?

Will you let me in?
Let me in, let me in
Will you let me in?

I can't kick the habit
I can't kick the habit
I can't kick the habit
I can't kick the habit
