(Christopher Barron/Eric Schenkman/John Poper/Aaron Comess)

You know how I tend to feel when nothing's happening
Like some big old bird so fat that he just can't fly

Far be it for me to be over reacting

My lady hurt like hell and all I can do is wonder why

CHORUS

Like a main in prison I'm occupied with busting out

I'm in no position said what are these walking blues
about

Hey Mary come play with me please forget your
lessons

Pete's off with Captain Hook and with cutlasses they
play

I got a feeling you and me get along fine

Down on the beach in the fresh air with a jug of wine

CHORUS

Aww yeah, I claim to be infected

Aww yeah point me in the right direction

The suggestion it's got the best of me

I gotta go on for now, gotta be strong

But it's hard to exist
