"Here Comes The Bride"

Here she comes on down the aisle
Behind her veil she wears a smile
In her hands the bright bouquet
Daddy's here to give the bride away

Best man fumbles for the band
Groom puts it on her trembling hand
Almost before the vows are through
In her calmest voice she says, "I do"

(Here comes the bride)
Something old
(Here comes the bride)
Something new
(Here comes the bride)
Something borrowed and something blue
(Here comes the bride)

She hears the sound of little feet
But first there's a wedding cake to eat
Guests line up to kiss the bride
The groom feels like a lucky guy

Up above the church bells ring
Preacher says which Psalm to sing
There was silence 'til a bride's maid sighed
And someone said, "Here comes the bride"

(Here comes the bride)
Something old
(Here comes the bride)
Something new
(Here comes the bride)
Something borrowed and something blue
(Here comes the bride)

{You may now kiss the bride, kiss the bride
You may now, you may now kiss the bride}

The veil goes back revealing bliss
The groom leans in to take his kiss

(Here comes the bride)
Something old
(Here comes the bride)
Something new
(Here comes the bride)
Something borrowed and something blue
(Here comes the bride)

(Here comes the bride)
Something old
(Here comes the bride)
Something new
(Here comes the bride)
Something borrowed and something blue
(Here comes the bride)

Here comes the bride
Here comes the bride
Here comes the bride
Here comes the bride
