Too many roads with too many cars  
Too many windows with too many bars  
Too many doors with too many locks  
That's why I wanna get out of  
Pandora's box  
I just wanna got out of  
Pandora's box

You know that you dance, you know that you sing  
You know that you give you most anything  
You know that you real you you now that you lost?  
That's why I wanna get out of  
Pandora's box  
I just wanna got out of  
Pandora's box  
Pandora, how I adore ya  
Pandora, let me explore ya

Its not excitement I want, or danger I crave  
Don't want to be king, don't want to be a slave  
More precious to me than all the gold in fort knox  
Is lovely little  
Pandora's box  
I just want to get out of  
Pandora's box
