[Del]

Whoa.. Hey let me ask my man over here!  
Hey man let me ask you a question man and c if you  
know whatÂ's up!  
beat this!

Who fuses the music  
With no illusions  
Producing the blue prints  
Clueless?  
Automator - defy the laws of nature  
Electronic monolith throw a jam upon the disc  
The futuristic looper with the quickness  
Hyper-producin' hydrogen fusion liquids keep your  
distance

First we coerce your brain patterns  
Collaborate with time-consumin' re-programin'  
I apply the flow cannon, the combo so slamin  
Automaticly reconstruct the old canvas  
His logic impress, a hypnotic effect  
Ya latin patent you could call it a gift  
Man he all in the mix nuclear physicist  
Geneticly taylored every bit of this stimulus

Psyonically bionically forget how you feel  
Especially formulated the rest of you fornicated  
It takes more to make this  
He juggles variables  
Unparreled propulsion to carry the load  
Nuerl surgeon the purest virgin conducting currents  
Musical merlin he shines like sterling  
Watch the Automator draw laser of a higher intensity  
And instantly miss a beat create a symphony

Hey I know now, I know now repeat  
Automator's on the planet earth  
and he's gonna stop the war of the worlds  
Deltron Zero is here as well take the cut for real  
He told y'all evil do'ers he is  
truly gifted in the matters of rhythm

Ya you got to give him that  
In his infinite wisdom you know you got to get with him

How's that?,, How's that?... How did i do? is it cool?  
(good job!)  
was it really? (all is well with the cosmos) yhes, yes ..  
i've got the purge of..  
D.L. 3030,, yhea .. YHEA!
