"Violent Mood Swings"

Visit "[Violent Mood Swings](#)" on MotoLyrics.com

Mother fuck the way you think, you never made sense
anyway

Building up to tear it down you're codependent on
apathy

By design you fucking sterilize so you desensitize

(Make it easier to swallow)

Self-involved you fucking took it all, who's gonna take
the fall?

('Cause it's never gonna be the same)

Change

Don't wanna see, don't wanna think

Don't wanna speak for yourself

Don't wanna see, don't wanna think

Don't wanna speak for yourself

It's like a fucking disease, it's like a fucking disease

It's like a fucking disease and it shows

It's like a fucking disease, it's like a fucking disease

It's like a fucking disease and it shows

Repetition paves the way, all for you to weaken and
sedate

So contrived and watered down a fucking shadow

Of what should have been isolate so you can separate

And fucking terminate

(To diffuse the situation)

Force on me a common enemy with no identity

(Now it's showing your perception too)

Too

Don't wanna see, don't wanna think

Don't wanna speak for yourself

Don't wanna see, don't wanna think

Don't wanna speak for yourself

It's like a fucking disease, it's like a fucking disease

It's like a fucking disease and it shows

It's like a fucking disease, it's like a fucking disease

It's like a fucking disease and it shows

You will never see, you will never see
You will never see, you will never see

Don't wanna see, don't wanna see and it shows
Don't wanna think, don't wanna think and it shows
It's like a fucking disease

Don't wanna see, don't wanna think
Don't wanna speak for yourself
Don't wanna see, don't wanna think
Don't wanna speak for yourself

It's like a fucking disease, it's like a fucking disease
It's like a fucking disease and it shows
It's like a fucking disease, it's like a fucking disease
It's like a fucking disease and it shows

It's like a fucking disease, it's like a fucking disease
It's like a fucking disease and it shows
(It shows)
It's like a fucking disease, it's like a fucking disease
It's like a fucking disease and it shows
(It shows)

It's like a fucking disease, it's like a fucking disease
It's like a fucking disease and it shows
(It shows)
It's like a fucking disease, it's like a fucking disease
It's like a fucking disease and it shows
