It might seem strange and it might seem out of place
But what I need is just a change
A different place, maybe a new face
It might seem weird and it might seem like a waste
But what I found is day after day
In a brand new world you can assimilate

So, so long goodbye
I don't know how I will be this time
I don't know where I'm going
I don't know where I'm going at all

Over the trees and away from here is where I'll be
I don't quite know where
But I've got a need to breathe new air
Someday somewhere somehow I will bring you back
A little piece of what I always knew my old world lacked

So, so long goodbye
I don't know how I will be this time
I don't know where I'm going
I don't know where I'm going at all
So, so long goodbye
I don't know how I will be this time
I'm sorry but I've resigned myself this time

So be strong

So, so long goodbye
I don't know how I will be this time
I don't know where I'm going
I don't know where I'm going at all
It's hard to decide if the way I am headed is right or
wrong
But the song is in my heart, and I am not the only one
