In space rock(y) (he) went up, in smoke for the crowd  
With lunar ideas he got lost with pinball eyes and lots to see

I'm comin up on you

There's not a thing that you can do

I'm comin up on you (ah...)

Hey, what a funny face

What a messed up place

Won't you take me down

Everyday (oh-ah's)

(oh-ah's)

In space rock(y) (he) went up, in smoke with the loudest sound

With lunar ideas he got lost, a new star for all to see

I'm comin up on you

There's not a thing that you can do

I'm comin up on you (ah...)

Hey, what a pretty face

What a messed up place

Won't you take me away

Everyday (oh-ah's - repeated)
