you ask me if i notice all the things you do

light the candles, light the insence

i am coming home to you

you make me..

i have seen you from my bedroom when you are alone

i have watched you moving slowly

through my magic telescope

you make me.. famous

i dont need this

i dont know what it is

i dont want this

and i'll get over it

(freedom, yes..)

you ask me if i notice how you aim to please

i have watched you moving slowly

crawling on your hands and knees

you make me.. famous

yeah
