Tonight I'm gonna get this right
I didnt bring candlelight,
I'm telling the stars to shine
But then I saw that the clock said 10
I'm sitting alone again,
a love with you wont begin
I was stu-stu-stuttering to tell you
How i felt all along
I was bro-bro-broken when you tried to make me see
What we cant be,
'Cause I got a heart,
I got a heart that disagrees
Talk to me and make me see back to the start
Maybe this time we can agree to disagree
Tonight I'm gonna take the time,
to tell you it wasnt right,
expressing this love of mine
I thought, I thought that you'd feel the same
I guess I was wrong again,
a love with you wont begin
I was stu-stu-stuttering to tell you,
Make me see, what we cant be
'Cause I got a heart, I got a heart that disagrees
Talk to me, and make me see back to the start
Maybe this time we can agree to disagree
Love like you have never been hurt before in your life
Love like you have never been hurt before
Makin me see, why we can't be
'Cause I got a heart, I got a heart that disagrees
Talk to me, and make me see
Back to the start, maybe this time we can agree
'Cause I got a heart, I got a heart that disagrees
I got a heart, I got a heart that disagrees
I got a heart, I got a heart that disagrees
And I got a heart, I got a heart, I got a heart, I got a
heart, I got a heart,
I got a heart that disagrees
