Just strap your seatbelt and watch me come undone
In this dark moonlit car I hope you'll understand
I too will listen the fire red meets night
The passion in your eyes
I hope you'll understand

(Our lives)

A fall that wont stop
I'm wearing all these scars
My bulletproof attire
I'm weak but then I'm strong
I'll breathe your words in
This poison I'm relieved
There's you and then there's me
We'll play strength when we're both weak

Hit the lights,
It's you and me block out the world
You play the sheep I'll play the wolf
And let me in, let me in.

This fire wont stop
The flames consumes my strength
I'm slowly diving in
Your skin consumes my stress
Your lips are venom
I feel you breathe me in
There's comfort through your skin
And I swear this is a sin.

(Our lives)

I've dropped my boyhood
I'll meet you half way there
You whisper in my ear
I'm pulling on my hair
Your words like needles
I can't make this routine
There's you and then there's me
We'll play strength when we're both weak

Hit the lights,
It's you and me block out the world
You play the sheep I'll play the wolf
And let me in, let me in

(Let me in)

Hit the lights,
It's you and me block out the world
You play the sheep I'll play the wolf
And let me in, let me in
