Give A Life, Take a Life

It's your job, you're not paid to feel,
You seem confused by your own ideals ,
Life and death, is what you're saying,
And if I speak, am I betraying ? ,

I was taught you'd care,
But, now I'm thinking, this ship is sinking,
And I'm scared,
'Cos you have the right to take my life away.

Peace on Earth is what you're teaching me,
Give a life, take a life
But do we practice what we preach ? ,
Give a life, take a life
Althou' I question if it's just,
Give a life, take a life
When you say it's time, then I might,
Give a life, take a life

I was taught you'd care,
But, now I'm thinking, this ship is sinking,
? And I'm scared,
'Cos you have the right to take my life away.

Interlude

I was taught you'd care,
But, now I'm thinking, this ship is sinking,
And I'm scared,
'Cos you have the right to take my life away.
