I snuffed out my god in your glass  
I hug my homogeneous kinds to you at nights  
a small rainbow on my fingertip  
I killed my self and you at the just first kiss  
i was crying constantly to my distinct sex  
a sad Dracula was I at nights  
and love was a mental malignant disorder  
my loneliness was sentenced to group-sex  
cigarette with alcohol by the taste of intercourse  
means: forgettingâ€¦|forgettingâ€¦|forgettingâ€¦|  
after you alcohol deteriorated me.. slept plastered  
after you I slept NEXT to whomever was and any one is  
after you I became whole of wounds which is twisted circle of bones  
I experienced whatever whit whomever that I could  
loneliness among the crowd , in all alone  
masturbating with sob and soap and sap and spit  
Heartbroken of sparrows and painting pool  
bestrewing your white color in the canvas  
next glass : resolved pills in the poison  
believe that I'm not scared of anything anymore  
there was darkness behind the darkness of our world

You were my beloved & you are & you won't be  
after you alcohol deteriorated me... slept plastered  
after you I slept with whomever was and any one is  
after you I became whole of wounds which is twisted circle of bones  
I experienced whatever whit whomever that I could
