i can't be parisoner in my pain/i feel bad and alone by my pills/in a room without window that is empty that pure darkness is for a sense/to that wild crazy brainless still is me/i'm Excited my pulse is beating terrible/i'm naked like a moonlight on night/confused and have trance,wet of fever/you aren't that feel fine of my tremor/ see to how my speech is delirium/see to blood is clod in my eyes/my vessel are swollen like a snake/deep of my spirit sprinkle on The Wall/i feel bad i feel bad maybe/i feel bad i feel bad maybe/i feel bad i feel bad maybe..

watch me how i break The Law/i'm an outlaw for length of width/you kill me and i'll be reborn/if i'm in mire will take you in mire/i feel bad again

this around of null distant make me cry to see i come down/that like a toy am fortunate/that rot on my patient words and sew a cerement of my skin/to foam to vomit of decency/i imagine i'm a horse but a gentrice horse/a metamorphosis like stone age/a metamorphosis of prose and Description of color/i'm a wolf that split The night/i'm pulse of this delirium and fever/i'm base for all of exception/i'm a man a wildman of us/deep of my spirit sprinkle on The Wall/i feel bad i feel bad maybe...
