With my God I jump over a wall and no mountain is too
high for me to ever cross
I'm not afraid of death I'm not afraid of life.
In His strength I attack any troop and I will not
surrender to anyone but God.
Come and take these hands.
Command take this guilty man.

Turn myself in here I go. Turn myself in try me.
Turn myself in let's go. Turn myself in.
Lay my life inside Your hands.
I hide myself in the shadow of Your wings.

I m not afraid to die. I will call upon His victory.
I am not afraid to die. I will call upon His victory.

Turn myself in here I go. Turn myself in try me.
Turn myself in let's go. Turn myself in .
Lay my life inside Your hands.
I hide myself in the shadow of Your wings.

There You are.
You shine Your light, You spread Your wings.
And I am standing in the shadow of Your grace.
There You are
You shine Your light
You spread Your wings.
And I am standing in the shadow of Your grace.
