Can I save your life. Lift you up to the sky.
How far is heaven. Let's go tonight.

Don't give up on me hanging there.
Don't you die on me please keep breathing.
'Cause it's a lie that your better of dead.
This is not a movie no happy endings here.

If you are not there I don't want to go I'd stick by your
side and follow you back home.
I'd give up forever I'd trade in my life just to be with
you.
Just to be with you just to be with you.

Don't give up on me hanging there.
Don't you die on me please keep breathing.
'Cause it's a lie that yor better of dead.
This is not a movie no happy endings here.
You are a car crash, train accident
It's inevitable.
The kingdom is at hand.
Hey Randell are you well where would you be.
Please Randell can you tell are you gonna be fine.

'Cause it's a lie that your better of dead.
This is not a movie no happy endings here.
No happy endings here.
No happy endings here.
