I hold the night within these dry hands. It waters my skin as I dwell in the dark.

May Your ways be mine. We've gotta get out we've gotta get out now.
May Your ways be mine. We've gotta get out. we've gotta get out now.
May Your ways be mine. We've gotta get out we've gotta get out now.
May Your ways be mine.
You enclose my soul. You lift me up high.
The end is nigh. I know that You are coming.

Don't set yourself up.
Don't set yourself up.
That's the flow I remembered in the past.
I wanna give it all to You so You can hold me close.

May Your ways be mine. We've gotta get out. we've gotta get out now.
May Your ways be mine. We've gotta get out. we've gotta get out now.
May Your ways be mine. We've gotta get out. we've gotta get out now.
May Your ways be mine.
You enclose my soul. You lift me up high.
The end is nigh. I know that You are coming.
I know You're coming. I know You're coming. I know You're coming.

We've gotta get out into the night.
But oh Lord Please save us all tonight.
I know You're coming.
We've gotta get out into the night.
But oh Lord please save us all tonight.
I know You're coming.
Don't set yourself up.
Don't set yourself up.
Don't set yourself up.
