Exhibition, on a mission, in position  
Shaking underneath the lights  
Perspiration, exploitation, masturbation  
Bating, making my jeans tight  
Who's the hunter, whos the prey  
Does not matter we're all in it for the game  
Rhythm pounding, tentions mounting  
Primal urges coarsing, infecting my brain

Feel the beat, from underneath  
Between the sheets, turn up the heat  
Give it to me  
Feel the beat, turn up the heat  
Primal

Incantation, smooth vibration  
Revelation, love lust making it alright  
Our seduction is our function and compulsion drives us  
All through out the night

Feel the beat, from underneath  
Between the sheets, turn up the heat  
Give it to me  
Feel the beat, turn up the heat  
Primal

(Lead)

Feel the beat, from underneath  
Between the sheets, turn up the heat  
Give it to me  
Feel the beat, turn up the heat  
Primal
